Do not use if the bag is damaged, cut or opened prematurely. Residents of Canada can call a provincial poison control center. Stop using this product and tell your doctor if the redness caused by the patch does not go away after 4 days. If you have any questions, ask your doctor or pharmacist. Start this medicine on your day you quit smoking. HOW TO USE: If you are using the over-the-counter product, read all instructions on the product package before using this medicine. Smoking causes lung disease, cancer, and heart disease. If the patch causes vivid dreams or interferes with sleep, you may need to use it only while you are awake (16 hours a day). Do not apply the patch to red, cut, or irritated skin or other skin products (such as makeup, lotions, powders). Quitting smoking is one of the most important things you can do to improve your health and live longer. Do not store in the bathroom. Always ask your health professional for complete information about this product and your specific health needs. Don't shave the area. Tobacco nicotine is an important part of tobacco addiction. Do not double the dose to get up to date. If you are pregnant, try to quit smoking without using a nicotine replacement product if possible. Apply the patch immediately after removing it from the bag. OVERDOSIS: This patch may be harmful if chewed or swallowed. Nausea, dizziness, hot flashes, heartburn, or headache may also occur. If any of these withdrawal symptoms or side effects persist or get worse, tell your doctor or pharmacist immediately. If your doctor has told you to use this medication, remember that your doctor has determined that the benefit to you outweighs the risk of side effects. You may report side effects to Health 1-866-234-2345. To help prevent withdrawal, your doctor may reduce your dose slowly. Many people who cannot quit smoking the first time are successful the next time. Wait at least a week before using the same application site. Do not use soap. The best dose for you is the dose that decreases the urge to smoke without side effects from too much nicotine. If your doctor has prescribed this medication, read the Patient Information Leaflet if provided by your pharmacist before you start using this product and each time you get a refill. Common nicotine withdrawal symptoms can occur when you stop smoking and include dizziness, anxiety, depression, or trouble sleeping, among others. If you notice other effects not listed above, contact your doctor or pharmacist. In the US - Call your doctor for medical advice about side effects. Consult your doctor or pharmacist about which brand of patch to use. STORAGE: Store in original packaging at room temperature away from light and moisture. Make sure you understand how to apply a new patch and dispose of the used product. If necessary, clip hair from the site before applying the patch. Keep all medications away from children and pets. Do not flush medications down the toilet or pour them into a drain unless instructed to do so. After several weeks, you will gradually lower your dose (strength of patch) until you no longer need nicotine replacement. Press firmly for 10 to 20 seconds to make sure the patch stays in place. You can change your next patch 24 hours later or go back to your usual dosing schedule. It is important to complete the treatment with this medication (8 to 10 weeks). Your dose will need to be adjusted to your needs, including smoking history and medical condition. Different brands of nicotine patches have different amounts of nicotine and different instructions for how long to leave the patch on the skin (such as for 24 hours or only while awake). Do not wear more than 1 patch at a time. DRUG INTERACTIONS: Drug interactions may change how your medications work or increase your risk for serious side effects. Keep a list of all the you use (including prescription and over-the-counter medicines and herbal products) and compã© it with your doctor and pharmacist. Check the recommended areas in the manufacturer's instruction sheet to apply the patch. Do not start, stop, or change the dosage of any medicine without your doctor's approval. Some products that may interact with this medicine include: high blood pressure medicines (including beta-blockers such as labetalol, prazosin), bronchodilators / decongestants (such as isoproterenol, phenylephrine). Quitting smoking may change the way the liver removes certain medicines from the body (including acetaminofã©, cafeAna, insulin, oxazepam, pentazocine, propoxyphene, propranolol, theophylline, erythrocytotic antidepressants such as amitriptyline / imipramine, "pã© water pills" / diuretics such as furosemide). You may need to stop using this product and try again later. During pregnancy, this medicinal product should be used only when clearly necessary. This information does not guarantee that this product is safe, effective or appropriate for you. Abstinence is more likely if you have used nicotine for a long time or in high doses. Apply the patch to a different area of the body at a time to avoid irritation. Smoking near a baby can also give the baby. Tell your doctors and pharmacists that you are quitting smoking. Apply a new patch if you drop the patch. Do not use for more than 24 hours. NOTES: If your doctor has prescribed this medicine, do not share it with others. others.
